

## Solar Power System

Solar Home System

Solar Industrial System

Solar Powered Irrigation System

Solar Telecom System

Solar Street Light

Solar Inverter

Solar Charge Controller

Solar Battery

### PGT Solar Power System:

PGT started import & marketing solar power systems with highly experienced technician's team to provide quality product & better service in this field. Solar Panels & batteries are imported from USA, Japan & china. Inverter unit & charge controller are local.

### Solar Products:

#### 1. Solar Home System.

Solar home systems are design & developed according to the requirements as well as environments of Bangladesh.

#### 2. Solar Commercial System

Solar commercial systems are design & developed to provide uninterrupted power supply in business places such as Shop, Showroom, Sales Centre, Service centre and others suitable commercial sites.

#### 3. Solar Industrial System

To ensure continuous production of an industry we are providing Solar Industrial systems in according to the requirements in this sector.

#### 4. Solar powered irrigation System

PGT has developed different types of solar power irrigation system to ensure proper supply of water to the field for better cultivation. The system mainly consist of PV array, inverter, controller & submersible Pump

#### 5. Solar Telecom System (for BTS tower)

PGT provides innovative & cost effective solutions for continuous operation of BTS tower.

#### 6. Solar Street Light.

PGT provides innovative & cost effective solutions for Street Light.
